General Considerations:

- a Space should meet the RES definition of “**Existing Space**.” See Appendix D, “Definitions” for RES definition of “Existing Space,” “Space Under Construction,” and “Planned Space.”
- b Parking count must meet the code parking requirements. Proposals that include access to additional parking stalls may be advantageous to the AGENCY.
- c Proposals should include an option to terminate the lease after one (1) year at the lessee’s discretion.
- d Lease will be written on the State of Washington’s approved lease documents. See Appendix E, “Lease Standard.”

Location Characteristics:

The agency has identified certain key location features for delivery of their services, including but not limited to the following:

- a. Proposals located Vancouver, WA or in the immediate may be advantageous to the agency.
- b. Proposed facilities should be in an appropriately zoned area.
- c. Facilities located outside of the 100-year flood plain as defined by the Federal Emergency Management Agency (FEMA) may be advantageous to the agency.
- d. Proposed facilities must be in areas with sufficient infrastructure in place to support the agency operational needs. See building characteristics below.

Building Characteristics:

- a. Please refer to Appendix C, "Space Allocation" for specific program requirements. The program and layout will be adapted to the selected facility during the design process.
- b. Please refer to Appendix A, "Leased Space Requirements" for general performance requirements and specifications.
