This contract was prepared to satisfy functionality requirements not met by earlier contracts in the statewide voter registration database. The Help America Vote Act ("HAVA"), Public Law 107-252 passed by Congress in 2002, is federal legislation that mandates that states work to improve election administration, voter outreach and education. One of the requirements under this federal legislation (Section 303) is the requirement that each state implement a "single, uniform, official, centralized, interactive, computerized statewide voter registration list that is defined, maintained, and administered at the state level" containing the record of every individual legally registered to vote in the state.
