No cost amendment extends the Optional Use contract by one (1) additional year through June 30, 2010. WSDOT requires IT technology personal services throughout each biennium when the expertise is either unavailable within the Agency's Office of Information Technology (OIT) or when OIT has insufficient resources to meet its needs. The purpose of the Optional Use (convenience) contract is to provide information technology services on an as-needed basis. The contract does not guarantee that the services will be utilized, but provides WSDOT access to specific resources as the need may arise. When a need arises this procurement will relieve WSDOT of the costly and repetitive administrative burden associated with conducting individual competitive activities and provide aggressive pricing to the multiple categories of services.
