Amendment adds funding to cover costs associated with restructuring the final deliverables under the Contract (13.3 and 15.3) to better meet web usability needs in support of a significant change to DOL's service delivery model. An economically-driven need to reduce costs by closing several Licensing Services Offices is underway and in support of that, the agency is simultaneously expanding online service options to the public. Additional funding in the amount of \$ 35,999.80 is required to complete this work.

The purpose of this amendment is to add additional funds for four new activities to continue to provide support, analysis, and enhancements for the CHILD Profile Immunization Registry and Health Promotion System. The Four new activities are. . .

1. Prepare an Assessment Report documenting and analyzing stakeholder business process improvement opportunities for conducting mass dispensing and mass immunization clinics. The current Novel H1N1 (Swine Flu) response will be used as the primary example of clinic practices and processes. The Assessment Report will address ways in which quality improvement and performance monitoring could be used to improve H1N1 clinic operations.
2. Develop and implement bar coding functionality for the CHILD Profile Immunization Registry and the Mass Immunization module within the Registry.
3. Develop functionality within the CHILD Profile Immunization Registry that mirrors the functionality in the Mass Immunization module to capture campaign and tier information. This functionality would allow users to use either the main CHILD Profile application or the Mass Immunization module to capture mass immunization data depending on the amount of time the user has to enter data.
4. Develop and implement vaccine allocation tracking functionality for both Local Health Jurisdictions (LHJs) and the Department of Health.
