The purpose of this amendment is to extend the period of performance of the comprehensive Yellow Book performance audit of the Port of Seattle's Real Estate Division.

On March 12th the Director of OFM granted the State Auditor's Office blanket exception pursuant to Engrossed Substitute House Bill (ESHB) 2921, Section 602, with respect to personal service contracts for performance audits. This is a zero cost performance audit amendment approved by the Director of Performance Audit, Larisa Benson.

The contract is being amended to allow more time for review of the preliminary findings and in turn produce the report and hold public hearings. The need for additional time to complete the work was caused by delays in the early stages of the audit. Amending the period of performance at no additional cost is the most effective solution.

The purpose of this Fourth Contract Amendment is to extend the end date of the contract from 6/30/10 to 6/30/11 and increase the maximum consideration available under the contract. The purpose of the original contract and subsequent amendments is to perform construction review on low income housing funded by the HTF. Funding for the original contract and all amendments is from repayment of Housing Trust Fund loans and 2% fee involved with building/rehabilitating this low income housing. This Amendment is a "substantial change" only because it is 50% or more than the original amount.

Under this 100% federal funded Contract, the Contractor would assist Commerce in the delivery of the Community Services Block Grant (CSBG) State Plan. That assistance would include training and technical assistance to the network of 31 Community Action agencies ("CAPs") throughout Washington State.

There are 2 authorized exemptions that apply to ESHB 2921. They are that the contract costs are exclusively federal (Health and Human Services (HHS) and that the costs are necessary to receive or maintain federal funds. This training is mandated to maintain the federal health and Human Services Grant, per the federal CSBG Act (Title II of the Community Opportunities, Accountability, and Training and Educational Services Act of 1998, 105th Congress, Second Session-1/27/98). It is also mandated under Washington State's CSBG State Plan.

Convenience contract. Services of a pool of consultants to provide ad hoc health consulting services in numerous areas of expertise, including but not limited to: insurance, benefits, technology, security/ privacy, health technology, community partnerships, strategic planning, trends (local, state, tribal, national), and federal regulations. Contractors will act as key strategic partners to meet emerging operational and legislative mandates in an efficient, cost effective, timely manner. The intent of the pool is to have sufficient, available, and qualified individuals when the need for any of the needed services is identified. HCA anticipates an ongoing need for Contractors to provide ad hoc consulting services related to a variety of local, national, and international health, health insurance, and health care topics. This broad but often specialized expertise is not available from current staffing resources within the agency. This pool will establish qualified and competitively priced sources of professionals, which can be used to meet these needs and help HCA meet operational and legislative mandates.

The purpose of the contract is to provide as-needed consulting services and training for the 11-Digit NIGP Commodity Code System.

This is master contract that will be utilized by other agencies or poli-sub. There isn't a "2nd-tier" process as Periscope Holdings is the sole provider of these services.

The consulting requires Periscope Holdings to develop cross walk tables and aid in the implementation of various custom state deployments for the federal supply code and other classification systems.

Training will also support the 2,000 plus grant service codes needed by the State of Washington. Training will be mutually agreed upon by the parties and funded by agencies, political sub-divisions and institutions of higher education implementing the 11-Digit NIGP Commodity Code System.

Under the terms and conditions of the contract, the consultant completed the original work. It has been determined by management that an integration plan to assist the employee and manager in repairing their relationships will be beneficial to the division and the agency. Because the consultant has developed a rapport with the individuals concerned, it will be less expensive to have this particular consultant complete the work as opposed to having a new one come in. The need for an outside third party is critical to the success of this endeavor. The Military Department is requesting a "critically necessary work" exception under ESHB 2921 for this amendment.

This Amendment extends the term, and provides additional funding for implementation, and enhancements to the Habitat work Schedule System. The Habitat Work Schedule System was developed in part to assist lead entity watershed groups to meet their legislatively mandated requirements per RCW 77.85.060 (Salmon Recovery), and provides transparency and accountability to the public through the Internet. Funding is provided through a grant from the U.S. Fish and Wildlife Service.

WDFW requires ongoing services to assess claims arising from damage caused by deer/elk to commercial agricultural/ horticultural crops. To wit, the purpose of this Amendment is to increase the budget, and allow for additional work as required by WDFW. This Contract was originally developed to use licensed crop adjusters to investigate deer/elk damage claims to commercial agricultural/horticultural crops as WDFW is legislatively mandated under RCW 77.36.040 to quickly adjudicate deer/elk damage claims.

The purpose of the Contract is to provide technical services for GIS and database processing applications specific to the Submerged Vegetation Monitoring Project (SVMP) in the Nearshore Habitat Program. DNR's eelgrass monitoring data is mission-critical to DNR since it is used by multiple programs to measure success of management actions to protect the environment. The Puget Sound Partnership has selected DNR's eelgrass monitoring data as one the provisional indicators to measure success of this major new initiative to protect and restore Puget Sound. It is used by DNR as a performance measure for environmental protection. Additionally, monitoring results are also used in many assessments of environmental condition, including the State of the Sound report and salmon habitat monitoring.
