Contractor will be providing Technical Assistance and Training to meet national goals to increase the number of individuals who can live successfully in an integrated setting. It will allow individuals to live and receive services in the setting of their choice and on average saves money both for the state and federal government. The department established goals of individuals who would be offered the opportunity of moving to more cost effective and integrated community settings. The Division of Developmental Disabilities does not have enough identified and developed community resources to meet the needs of individuals with complex needs. The division needs many additional trained providers and staff with knowledge and skills to meet the goal of moving individuals to community settings from institutional settings when they request change. These resources are needed to fulfill the commitment to the federal Roads to Community Living grant and the direction of our Governor. This contract/amendment fits the exception in the ESHB 2921 as being critically necessary to the work, and a core mission of, the Aging and Disability Services Administration.

The Student Assistance Prevention Intervention Services Program (SAPISP) is currently administered by the Office of Superintendent of Public Instruction (OSPI) with funding from the Department of Social and Health Services' (DSHS) Department of Behavioral Health and Recovery Services (DBHR). It provides prevention, intervention, and support services to students and educators in grades K-12. A condition of the contract with DSHS/DBHR is to evaluate the program, to determine program effectiveness, as well as assess future service placement.

This contract is exempt from ESHB 2921 as it is 100% federally funded (Substance Abuse and Mental Health Services Administration: Substance Abuse Prevention and Treatment Block Grant).
