No cost amendment extends the period of performance to 12/17/10 for advanced training of Washington State Library and Renew Washington library staff in how to facilitate on-line and in-person peer learning experiences and how to create on-line venues for peer learning. The amendment also authorizes the peer training for additional public libraries across Washington state. This amendment is exempt from the ESHB 2921 freeze on personal service contracts because it is a no cost amendment and because it is funded from private grant funds (Bill and Melinda Gates Foundation).

The HCA requested and received an exception to the contract freeze established by ESHB 2921. The purpose of this contract is for the Contractor to participate as a member of the Health Technology Clinical Committee.

The Health Care Authority believes that this personal service contract meets the exception for critically necessary work of an agency due to the fact that by law we are required to establish an independent health technology clinical committee (RCW 70.14.090), and this personal service contract is needed to be in compliance with Legislation.

Doug Porter, HCA Administrator approved the contract to be filed with OFM.

This Master Contract is one of multiple optional-use Master Contracts entered into by the Department of Information Services (DIS) under the Information Technology Professional Services (ITPS) contracting program, which provides both IT personal and purchased services, in order to reduce the redundancy and the efforts expended by our customers and the vendor community to secure contractors providing information technology services. Contractor will provide the following services under this Master Contract:

- 3 External IT Quality Assurance and Independent Verification and Validation
- 4 IT Project Management

This Master Contract is not subject to the provisions of ESHB 2921, section 602, since the purpose of this Master Contract is to streamline and to reduce the costs associated with the procurement process on behalf of state agencies and this contract does not itself obligate the state for any payments to the vendors."

Complete an analytical review of the impact on Federal recoveries associated with implementing Executive Order 10-01 and designating the Health Care Authority (HCA) as the Single State Agency for Washington.
Under Executive Order 10-01, Governor Gregoire created the Health Care Cabinet to provide leadership for the implementation of national health reform by delivering to the Governor a work plan to communicate recommended actions for Washington State including specific measures of success. The Governor intends to consolidate under common direction the state health care purchasing for Medical Assistance, Basic Health and public employees under the HCA. Recognizing legislative and federal approval will be needed to designate HCA as the Single State Medicaid Agency for WA, planning for the transfer must begin immediately in order to receive feedback prior to the 2011 legislative session. In order for the Medicaid Purchasing Authority to plan for the transition to Health Care Authority, and the designation of HCA as the Single State Agency, an analysis of administrative costs must be performed and models developed that will maintain federal funding and prevent or limit cost to the state for these changes.
This meets an exemption to ESHB 2921 because it is necessary to receive and maintain federal funds. Heidi Robbins-Brown, Deputy Assistant Secretary of MPA has approved this contract.

DOH requests exception to the contract freeze established by ESHB 2921. This request is approved by Mary Selecky, Secretary of the Department of Health. These services are critically necessary. The amendment is funded by state and by private funds from Robert Wood Johnson Foundation. RCW 43.70.520 and 43.70.580 require the DOH to have a public health services improvement plan in place and identify key health outcomes for Washington's population. The plan includes the requirement to develop standards for the governmental public health system to provide public health protection and a process to systematically and regularly measure system performance. The DOH is undertaking the next cycle of performance review. The contract included 18 local health jurisdictions (LHJs) and DOH for review. Since that time the other 17 LHJs have decided to join in. Factors that arose since the inception of the original contract that led to this decision include the requirement that an LHJ participate in the standards review in order to receive state general funds (Local Capacity Development Funds) and the desire to seek national accreditation, on which it is believed future federal funding will be allocated. Regular reviews of the governmental public health system's ability to provide services in compliance with the standards moves the system toward better capacity to protect and improve the health of Washington's population. To now leave out 17 of Washington's LHJs will have a detrimental effect on ensuring that all people in the state of Washington receive the same level of public health protection by the governmental public health system.

The contractor provides training and technical consultation to nine specifically focused quality improvement projects. Due to the focus on national accreditation and more quality improvement knowledge needed in the public health system, this amendment expands the statement of work for this work.

initiate a plan for the graduate medical education programs to meet the physician workforce needs for Central/Eastern Washington. This contract fits the exemption ESHB 2921 of being critically necessary. There is a critical shortage of physicians that is destined to get worse in Eastern/Central Washington. It will take at minimum seven years to create some semblance of parity. Currently there are 1550 residency/ fellowship positions west of the Cascades and 100 east of the Cascades. A system approach to this inequity is necessary to develop the workforce that is necessary for the needs of this state. There is good data available that the UW is a net importer of physicians, which will become considerably more difficult as the needs increase and the supply does not change. Under ESSB 644, Section 604(8) is the proviso appropriating \$250,000 to the UW "to provide solely for joint planning to increase the number of residency positions and programs in Eastern Washington and Spokane" The results of the joint planning efforts must be reported to the legislative committees on higher education by December 1, 2010. Paul Jenny, Vice Provost of Budget and Planning has approved this contract to be filed.

The purpose of this amendment is to extend the length of the contract as planned from June 30, 2010 to June 30, 2012, and to change the percentage charged for on-line advertising. This will not change the total budgeted amount for this work. The purpose of this contract is to hire a media buying firm to negotiate advertising purchases, value added advertisig strategies and help plan advertising strategies for the Washington State Beef Commission. RCW 16.67 requires that the Washington State Beef Commission conducts programs that increase demand for beef in Washington state. Commodity commissions are exempt from the freeze on personal service contracts.
