The purpose of this Contract is to provide enhancements and alterations to the Securities Tracking and Registration System (STAR). This product is a proprietary common off the shelf (COTS) system that includes several enhancements and modifications that meet the needs of DFI. This system provides public access to license and registration information related to DFI regulated entities and is used by some DFI licensees to apply and renew their licenses online. The system also shares data with national licensing and registration databases. The STAR system is mission critical to DFI and is the only database system used for DFI core business activities.

Funds from the National Telecommunications and Information Administration (NTIA) and administered through the U.S. Department of Homeland Security (DHS) for the Public Safety Interoperable Communications (PSIC) Grant Program are being provided for six initial projects to enhance the interoperable communications capability of public safety agencies in responding to and recovering from disasters and incidents of terrorism. DHS approved the Department's request for an extension through September 2012. The Department will require the Contractor's assistance to continue technical review of the three projects that have been extended. The scope of work will be modified to reflect the work required until the grant performance period ends:

Due to the additional workload, the contract amount will increase by \$84,700. The hourly rates will remain the same.

The Washington Military Department (WMD), as a state agency, WMD's intent is to use existing recent planning and merge that planning into a single 25-year plan that captures the prior work, clarifies the intent and strategic vision of that work, eliminates any seeming contradictions between documents, and prepares the department to acquire the proper inventory of facilities for the next 25-years. Our intent is not to start from scratch and prepare a new long-range plan.

WMD does not have the resources to complete this plan and needs an outside consultant to get the plan completed. This contractor was selected through a RFP process. (RFP-11-PERS-035)

The purpose of this amendment is for Tri-West Group to continue to provide the Division of Behavioral Health & Recovery (DBHR) with unique consultation and support on issues that arise on a national and state level concerning children's mental health issues. The services will be provided on an as-needed basis through Work Order authorizations from DBHR. TriWest Group has worked closely with the federal Substance Abuse and Mental Health Services Administration (SAMHSA) and Washington State will benefit from this extensive knowledge and relationship. This amendment adds applicable funding to this contract.

The purpose of this Contract is to: Provide Consultation Service to facilitate committee formation and activities in order to meet Aging & Disability Resource Center (ADRC) expansion grant and required performance outcomes and timeframes. This original contract was done via GA 2nd tier procurement, however the expansion grant for the extra work was not given prior to the original contract expiring. GA would not let us amend it "after the fact" and therefore we had to create a new contract. This contract is entirely granted from the federal government.

The purpose of this amendment is to: 1) Modify the core competency training content developed while under contract 10-1155 with DEL (FY 09-11) to allow for on-line conversion; 2) Increase funding for Improvement Incentive grants (Section 8.4), due to accepting additional eligible providers to the QRIS Early Adopter program for FY12; 3) Change the FFN Service Report (Deliverable 9.1 (I)) due date; and 4) Correct error in funding totals listed in Section 2.1. The Contractor will continue to assist child care providers by offering professional training, educational scholarships, and resources; supplies parents valuable information on licensed child care in their area and tips for selecting safe and healthy child care providers; helps businesses by developing programs to benefit employees and enhance economic policymakers, business leaders, educators and other local partners in support of high-quality child care; and provides in-depth data and analysis on child care supply and demand.

WSDOT seeks to continue the practice of contracting with a public affairs firm to assist in developing federal funding opportunities for transportation projects and programs, and in shaping federal legislative and regulatory transportation proposals to benefit Washington State.

The complex, often unpredictable and sometimes fast-moving nature of federal transportation policy and funding legislation requires specifically experienced on-the-scene staff with effective relationships with Congressional and committee offices. The geographic distance and time change between Washington State and DC also requires a DC presence who is available to respond quickly when necessary, and who can participate in transportation-related committee hearings and work sessions as needed.
