PURPOSE

The CONTRACTOR will provide design and engineering services to develop preliminary fish passage designs and cost estimates for high priority projects. Engineering services may also be needed once the project is funded to assist local sponsors with implementation. This could potentially cover a number of engineering tasks including, but not limited to, the following: preparing bid documents, final design work, contract negotiations, construction management, construction supervision and inspection, and guidance on challenging projects

The purpose of this project is to perform barrier evaluations on potential projects and to produce site-specific information for the evaluation and funding decision process of the Family Forest Fish Passage Program (FFFPP). The program is using the Washington Department of Fish and Wildlife (WDFW) protocol for barrier evaluation.
