

Executive Order 12-06 Report

ACHIEVING ENERGY EFFICIENCY IN STATE BUILDINGS

December 2015

Agency Name:	Department of Social and Health Services
Agency Point of Contact:	Robert J. Hubenthal
Point of Contact Title:	Assistant Director for Capital Facilities Mgt.
Telephone Number:	360-902-8168
E-mail Address:	Robert.Hubenthal@dshs.wa.gov

Describe benchmarking, metering, audits, and energy retrofits completed by the agency in 2015 to meet the requirements of EO 12-06:

- Through the Washington State University Extension Energy Office, maintained benchmarks in Portfolio Manager for all state-owned facilities and those leased facilities where we hold the utility account.
- Completed installation of 100% of the ESCO energy efficiency measures at the Echo Glen Children's Center. Satisfied the requirements for utility incentives and a \$100,000 Department of Commerce Energy Grant.
- Completed installation of 80% of the ESCO energy efficiency measures at Rainier School. Satisfied the requirements for utility incentives.
- Completed installation of 20% of the ESCO energy efficiency measures at Fircrest School.
- Completed boiler controls via ESCO performance contract at Western State Hospital.
- Upgraded various building systems, including energy efficiency improvements, through preservation projects funded in the capital budget, e.g. new chillers, furnaces, heat pumps, freezers, kitchen equipment, insulation, windows, etc.

Describe benchmarking, metering, audits, and energy retrofits that the agency plans to implement in 2016 to meet the requirements of EO 12-06:

- Complete ESCO performance contracts at Rainier School and Fircrest School.
- Contract with the Washington State University Extension Energy Office for Resource Conservation Manager services.

Executive Order 12-06 Reporting Form

Describe how the agency used Energy Star Portfolio Manager benchmarking in lease negotiations for new or renewed leases in 2015:

- The Washington State University Extension Energy Office worked with DSHS to collect utility data to populate Portfolio Manager with data for leased facilities.
- WSU provided frequent updates on emerging trends and benchmarking data that was factored into new lease negotiations by the Leased Facilities workgroup.

Describe actions that will be taken in 2016 to save energy through operational changes and continuous monitoring using Portfolio Manager:

- DSHS will extend our current contract with the Washington State University Extension Energy Office to collect and track utility data for each facility campus and monitor trends in energy consumption.
- Anomalies and heavy energy users will be investigated to identify potential improvements.

NOTE:

DSHS operates numerous campuses with hundreds of free-standing buildings, such as housing units, that are not metered for individual energy usage. Portfolio Manager is designed to be building-specific, which means DSHS would need to install meters on nearly 500 buildings statewide to populate Portfolio Manager with truly accurate site-specific data.

Attachment:

A - Agency Progress in Implementing EO 12-06 (by building)
