**Scope of Work**

This Request for Qualifications is for the purpose of selecting an Architect for Pre-Design Services for the Cascadia Gateway Building, CC5, located at Cascadia College, WA. This scope of work includes Pre-Design services only.

The new 61,600 SF Gateway Building at the Cascadia College Campus will be the new center for student services and additional classrooms to be used for foundational course capacity. It will also be the new identifying building for Cascadia College, which shares a common campus with UW Bothell.

**Description of Facility**

Cascadia College has grown quickly since its beginnings in 1994 and is the newest community college in Washington. The need to consolidate student services into one facility and adding additional classrooms supports the community educational access and the College's need for facilities that support educational excellence. With a Gateway Building for Cascadia College, the identity becomes clear within a complex of buildings that is shared with UW/Bothell.

The preliminary budget for the MACC for this project is **\$24,800,000**. While the Pre-Design effort will evaluate delivery methods, there is an initial desire to use the design-build procedure. This Project is pending anticipated funding for Design and Construction in the 2023-2025 biennium. ***Pre-design services are currently funded, for approximately \$250,000.00. The Pre-Design must be completed by June 30, 2022.***

**Project Goals:**

*This project provides a unique opportunity to consolidate student services, add classrooms, and create an identity as a Gateway Building for Cascadia College. The consolidation of student services, additional classrooms for professional and technical learning, added together in a single building will increase student success, achievement and retention.*

- *Develop an environment that encourages active learning, research and innovation in spaces designed for group work, collaboration and inter-program synergy*
- *Informal study and gathering spaces will promote student-to-faculty and peer-to-peer engagement and support high-impact teaching practices and promote innovation.*
- *Enable students the opportunity to use the latest learning techniques, tools and available technology.*

- *Providing expanded, up-to-date facilities for all students will strengthen the client’s contribution to meeting workforce demand.*
- *The center will increase social equity by removing barriers to ADA and bringing learners from multiple programs together as a community.*
- *The building will meet the client’s long-term commitment to environmental stewardship.*
- *The awarded A/E must be able to complete the Pre-Design by June 30, 2022 following the guidelines of the OFM Pre-Design Manual requirements.*

### **Evaluation and Scoring**

In evaluating each of the criteria, the Selection Panel will identify significant and minor strengths and weaknesses from the submissions. The Selection Panel will then use the following guidelines to evaluate the submissions for each Selection Criterion, based on the weighting assigned in the RFQ and any addenda. After initial scoring, the selection team will come to a consensus ranking of the Firms.

#### **1. Definition of “strength” and “weakness”:**

- a. The term “strength” ultimately represents a benefit to the Project and is expected to increase the Firm’s ability to meet or exceed the Project Goals. A minor strength has a slight positive influence and a significant strength has a considerable positive influence on the Firm’s ability to exceed the Project Goals.
- b. The term “weakness” detracts from the Firm’s ability to meet the Project Goals and may result in inefficient or ineffective performance. A minor weakness has a slight negative influence and a significant weakness has a considerable negative influence on the Firm’s ability to exceed the Project Goals.

#### **2. Scoring:**

- a. **Excellent** (81-100 percent of points available): The Evaluative Criteria demonstrates an approach that is considered to exceed the Project Goals and the RFQ requirements and provide a consistently outstanding level of quality. *To be considered Excellent, it must be determined to have significant strengths and/or a number of minor strengths and few or no appreciable weaknesses.*
- b. **Good** (61-80 percent of available points): The Evaluative Criteria demonstrates an approach that is considered to meet the RFQ in a beneficial way (providing

advantages, benefits, or added value to the Project) and offers quality. *To be considered Good, it must be determined to have strengths and few, if any, significant weaknesses. Minor weaknesses are offset by strengths.*

- c. **Fair** (41-60 percent of available points): The Evaluative Criteria demonstrates an approach that contains minor and/or significant weaknesses and limited appreciable strengths.
- d. **Deficient** (0-40 percent of available points): The Evaluative Criteria demonstrates an approach that contains significant weaknesses and no appreciable strengths.
- e. **Non-Responsive:** Does not meet the Minimum Qualifications required for evaluation. In addition, the Owner, at its sole discretion, may reject any Evaluative Criteria deemed non-responsive to any of the requirements.
