**Question:** Can you confirm if the four pages for Attachment 1 and the required Vaccination Verification Declaration Form (four total pages) count towards the 16 total pages?

**Answer:** The Vaccination Verification pages would NOT count towards the 16 total pages.

**Question:** Is this a state or federally funded project?

**Answer:** It involves both federal and state funding.

**Question:** Is there a list of bidding architects accepting sub consultant information?

**Answer:** We do not have a list right now, but you can see the architects attending the information session, and there will be a list after the SOQ's are submitted for Phase I, but you may want to wait until Phase II Architects are announced (for interviews) and contact them at that point.
