

STATE OF WASHINGTON
DEPARTMENT OF SOCIAL AND HEALTH SERVICES
P.O. Box 45010, Olympia, Washington 98504-5010

December 1, 2014

TO: Donna Albert, Energy Project Manager
Department of Enterprise Services

FROM: Kevin W. Quigley
Secretary

K. Marshall for Kevin Quigley

SUBJECT: **EXECUTIVE ORDER 12-06 REPORTING**

Attached is the Department of Social and Health Services (DSHS) energy report for 2014 as required by Executive Order 12-06 - Achieving Energy Efficiency in State Buildings.

In the year ahead, DSHS intends to complete energy performance contracts at Echo Glen Children's Center, Fircrest School, Rainier School, and Western State Hospital. This effort completes our requirements to implement feasible performance contracting improvements where feasible.

The Department also intends to continue our partnership with the Washington State University (WSU) Extension Energy Program to meet our Portfolio Management requirements. We will also extend this relationship by contracting with WSU for selected resource conservation management support.

I am pleased with the progress we have made to date in reducing our energy consumption in state facilities and pledge our continued efforts to implement further improvements.

Executive Order 12-06 Report

ACHIEVING ENERGY EFFICIENCY IN STATE BUILDINGS

December 2014

Agency Name:	Department of Social and Health Services
Agency Point of Contact:	Robert J. Hubenthal
Point of Contact Title:	Assistant Director for Capital Facilities Mgt.
Telephone Number:	360-902-8168
E-mail Address:	Robert.Hubenthal@dshs.wa.gov

Describe benchmarking, metering, audits, and energy retrofits completed by the agency in 2014 to meet the requirements of EO 12-06:

- **Completed investment grade audits at the Echo Glen Children's Center, Rainier School, and Fircrest School.**
- **Implemented Energy Service Performance Contracts at Echo Glen Children's Center, Rainier School, and Fircrest School.**
- **Completed energy efficiency measures via ESCO performance contracts at Western State Hospital (mechanical upgrades) and Lakeland Village**
- **Replaced two chillers at Lakeland Village**
- **Replaced commercial washers and dryers at Lakeland Village and Rainiers School with energy efficient models**
- **Upgraded various building systems, including energy efficiency improvements, through preservation and programmatic projects funded in the capital budget.**
- **Received over \$600,000 in energy grants from the Department of Commerce including one solar installation.**

Describe benchmarking, metering, audits, and energy retrofits that the agency plans to implement in 2015 to meet the requirements of EO 12-06:

- **Complete ESCO performance contracts at Echo Glen Children's Center, Fircrest School, Rainier School, and Western State Hospital.**
- **Pursue energy grant opportunities with the Department of Commerce.**

Executive Order 12-06 Reporting Form

- **Implement Print Management Services across the agency to replace existing copiers, printers, and scanners with Energy Star equipment.**
- **Contract with the Washington State University Extension Energy Office for Resource Conservation Manager services.**

Describe how the agency used Energy Star Portfolio Manager benchmarking in lease negotiations for new or renewed leases in 2014:

- **The Washington State University (WSU) Extension Energy Office – Plant Operations worked with DSHS to collect utility data to populate Portfolio Manager with data for leased facilities.**
- **WSU provided frequent updates on emerging trends and benchmarking data that was factored into new lease negotiations by the Leased Facilities workgroup.**

Describe actions that will be taken to save energy through operational changes and continuous monitoring using Portfolio Manager:

- **DSHS will explore extending our current arrangement through The Washington State University Extension Energy Office – Plant Operations to secure utility data for each facility campus and monitor trends in energy consumption.**
- **Anomalies will be investigated and heavy energy users will be investigated to identify potential improvements.**

NOTE:

DSHS operates numerous campuses with hundreds of free-standing buildings, such as housing units, that are not metered for individual energy usage. Portfolio Manager is designed to be building-specific, which means DSHS would need to install meters on nearly 500 buildings statewide to populate Portfolio Manager with accurate data.
