

Addendum #1

Issued: Thursday, June 8, 2023

Informational Meeting Sign-In, Submitted/Meeting Q+A, Presentation

Project: 2023-290
Project Name: Deschutes Estuary Restoration
Phase: Request for Qualifications
Meeting Location: Teams
Date/Time: Wednesday, June 7, 10:00 AM PST
DES PM: John Lyons, john.lyons@des.wa.gov

NOTICE TO ALL POTENTIAL RESPONDENTS

The Request for Qualifications (RFQ) is modified as set forth in this Addendum. The original RFQ documents remains in full force and effect, except as modified by this addendum, which is hereby made part of the RFQ. Respondent shall take this Addendum into consideration when preparing and submitting its Statement of Qualification.

1. Questions and Answers:

Questions	Answers
The <u>supplemental</u> RFQ documents (on page 6) requests a Diverse Business Inclusion Plan, and links us to the standard form online. Is this different than the Diverse Business Inclusion Strategies that are listed as a required element of the RFQ (on pages 5 and 7, with narrative text requested)? Are these elements counted against the 15-page limit?	The Diverse Business Inclusion Strategies is a short narrative discussing intent. The Diverse Business Inclusion Plan (only required for phase 2) is an actual 'commitment' to the proposed goals. Both are counted toward the submittal page limit.

2. Sign-in as captured in chat:

Drew Coombs, JA Brennan Associates, PLLC
Tessa Gardner-Brown, Floyd|Snider
Trish Scott, McMillen
Scott Stainer, KPFF
Kacy Hillman, Stantec
Peter Denato, Environmental Science Associates
Rich Hoey, City of Olympia

Washington State
DEPARTMENT OF
ENTERPRISE SERVICES

Deschutes Estuary Restoration

RFQ Informational Session

John Lyons, Assistant Program Manager - Planning

FPS

June 2023

PURPOSE

- This request for qualifications is to advance the preferred alternative of the final environmental impact statement for the Capitol Lake-Deschutes Estuary long-term management project completed October, 2022.
- DES seeks qualified firms to provide comprehensive project management services for an estuary restoration project. We are looking for a knowledgeable and experienced firm that can oversee all aspects of the project, ensuring its successful execution within the defined timelines, budgetary constraints, and environmental considerations.

PROVISO

"\$7,000,000 of the natural climate solutions account—state appropriation is provided solely to advance the preferred alternative of the final environmental impact statement for the capitol lake-Deschutes estuary long-term management project completed on October 7, 2022. At a minimum, the department shall:

- (a) Make tangible progress toward the next phase of design and permitting;*
- (b) Advance the memorandum of understanding for governance and funding of a restored estuary to an interlocal agreement that will govern long-term management of the restored estuary; and*
- (c) Initiate grant funding applications for design and permitting."*

SCOPE

Project Planning and Development

Contractor Selection and Management

Monitoring and Evaluation

Community Engagement and Stakeholder Coordination

Project Communications and Coordination

Coordination with Local Governments

Grant Research and Application

Permit Submittals and Compliance

Pre-Design (5th Avenue Bridge, Deschutes Parkway Reconfiguration, Geotechnical)

30% Design

PROJECT GOALS

- In 2016, Enterprise Services, in coordination with the Squaxin Island Tribe, governmental and agency partners, and the community, identified four primary goals for long-term management of the Deschutes Estuary that should be satisfied by any long-term management alternative.
 1. Improve water quality.
 2. Improve ecological functions.
 3. Manage sediment accumulation and deposition.
 4. Enhance community use of the resource.
