Exhibit 8, Space Allocation

Space Allocation

This tool will calculate total allocated square footage and total square footage per user. Please use the Telework Schedule Crosswalk tables on the "Reference Tables" Tab. If your agency requires program-specific space beyond the standard allocation, enter the type of space and desired square footage, which will be added to the baseline allocation. Agencies must justify the need for any program-specific spaces. If Allocation is over 20,000 sq ft provide the Life Cycle Cost Model Tool as an addendum to this form.
