

BREMERTON SCHOOL DISTRICT

- CONSOLIDATED FACILITIES REPLACEMENT GC/CM PROJECT

1. The timing of the SOQ is not good due to the holidays, and it could possibly limit who submits an SOQ. Can the applicant please elaborate if they have taken this into consideration?
2. Bremerton School District mentions Attachment A to demonstrate their staff's past experience, but the attachment only includes information for OAC. Please provide internal specific staff experience related to PDB delivery and any efforts they are taking for further education on this delivery model.
3. In Question 2B of the application, it is stated that the "Capital Bond passed on February 13th, 2024, with a 61.31% approval". It is not clear whether the bond covers the entire cost of the project. Please elaborate on the impact of the Capital Bond to the project budget.
