

KING COUNTY DEPARTMENT OF NATURAL RESOURCES & PARKS WASTEWATER TREATMENT DIVISION

- BLACK DIAMOND TRUNK CAPACITY UPGRADE GC/CM PROJECT

1. Does King County have an Inclusion Champion for the project? (*We did not see anyone named*)
2. What is the desired DBE/MBE participation in design and construction? (*Note: Using current data from the same program would be a great indicator*)
3. Per item 4 of the application, please provide more information on the process, stage gate method, or other scoring criteria used by the agency's internal committee to determine that GC/CM is the optimal delivery method "type selection."
