The Members of CPARB –

I would like to express my interest in re-applying for the Owner Cities position on the Project Review Committee.

I have spent the past two years as Chair and Vice Chair of PRC and in the many years I have served, our group has been committed to comprehensively and thoroughly reviewing project and agency applications for alternative delivery and become more engaged and aligned to our mission. I have also furthered my experience and engagement as a member of the Board Development Committee and the WSDOT Project Review Task Force. I continue to be a practitioner of alternative delivery, currently managing one of the City of Seattle's most complex Heavy Civil GC/CM projects in Overlook Walk. I am also a member of the City of Seattle's Internal Review Committee (our version of PRC) and have worked with multiple peer agencies in support and education about owner-preparedness before using alternative contracting methods. I believe that I can represent the interests and concerns of local agencies on the PRC and bring leadership and experience to the Committee.

I have been a Project Manager for Owner agencies for 24 years, 20 in Washington State. I have managed over 35 projects through design and construction with increasing in scale, complexity, and community impact totaling over \$2B in capital investment. I previously led two large GC/CM transportation projects for the City of Seattle - First Hill Streetcar and Elliott Bay Seawall. I bring alternative delivery experience including procurement, risk allocation, subcontracting, women and minority business outreach, and negotiation. I am a knowledgeable and trusted communicator, have a proven track record of assembling appropriately qualified teams and completing projects, and possesses a wealth of lessons learned of alternative delivery. I have a BS in Civil Engineering from the University of Michigan and am a licensed Professional Engineer.

I believe in the value of alternative delivery and will leverage the above skills to benefit capital projects and owner agencies across the state. Thank you in advanced for consideration.
