

Market Search for Leased Space

The State of Washington, acting through the Department of Enterprise Services (DES), and on behalf of the agency referenced below, is seeking to lease space as defined in this document.

Project Information

Project #:	25-12-412
Agency:	Department of Fish & Wildlife (DFW)
Location:	Clallam County
Square Footage:	Approximately 2,428 BOMA rentable SF of Office, Lab, and Storage Space.
Date posted:	1/19/2026
Desired term:	5 years. A minimum lease term of five (5) years is required. Proposers may, at their option, include other lease terms no longer than ten (10) years.
Occupancy desired:	3/1/2026

DES Real Estate Services (RES) Contact Information

Leasing Agent:	Trevor Lybbert
Email:	trevor.lybbert@des.wa.gov
Phone number:	360-407-9298
Mailing Address:	1500 Jefferson Street SE P.O. Box 41468 Olympia, Washington 98504-1468

Attachments: [Appendix A Leased Space Requirements](#)

[Appendix B LSR New Space Addendum](#)

[Appendix C Space Allocation](#)

[Appendix D Definitions](#)

[Appendix E State Standard Lease](#)

[Appendix F Area of Consideration](#)

Geographical Areas of Consideration:

Properties for consideration should be located within the area described in Appendix F.

General Considerations

- a. Space should meet the RES definition of “Existing Space.” See Appendix D, “Definitions” for RES definition of “Existing Space,” “Space Under Construction,” or “Planned Space.”
- b. Desired parking: Secured parking availability for 13 agency vehicles, with one of these spaces being ADA compliant, may be advantageous to the agency. Code parking minimums are required. Parking quantities exceeding code minimums may require a parking exemption per [RCW 43.01.240 \(3\)](#).
- c. Lease will be written on the State of Washington’s approved lease documents. See Appendix E, “State Standard Lease.”
- d. RES will require proof of ownership prior drafting lease documents. The preferred proof of ownership is a clear title report. In certain circumstances, a certified copy of the deed may be an acceptable substitute for the title report.
- e. Prevailing Wage: Proposer and Proposer’s vendors and contractors shall pay Prevailing Wages or applicable Federal Wages to all workers, laborers, or mechanics employed in the performance of any part of the proposed project in accordance with RCW 39.12 and the rules and regulations of the Washington State Department of Labor and Industries (L&I). Proposer agrees to comply with the provisions of RCW 39.12 as required under RCW 39.04.260 unless specifically exempted by the L&I. Submit all compliance paperwork directly to L&I, who makes all determinations regarding the applicability of Prevailing Wage. For additional information, visit L&I’s website at <https://lni.wa.gov/licensing-permits/public-works-projects/contractors-employers/>.
- f. Agencies will consider a facility with a documented or calculated low Energy Use Intensity score (EUI) to be advantageous. Building shell construction, air sealing, insulation, electrical and lighting systems, and HVAC systems in State leased facilities are required to meet or exceed the Washington State Energy Code at the sole cost and expense of the lessor.

Location Characteristics:

- a. Proposals should be located within the following Geographical boundaries:

1. Within the city limits of Port Angeles,
 2. Locations within a two mile radius of a Port Angeles Boat Launch is strongly preferred.
- b. Proposed facilities should be in an appropriately zoned area.
 - c. Preference may be given to locations that are near existing public transportation route or routes. Additionally, proposed facilities served by public transportation with hourly service during the hours of 8 AM to 5 PM may be advantageous to the agency.
 - d. Proposals that provide ready access to freeway and other major arterial roads may be advantageous to the Agency.
 - e. Facilities located outside of the 100-year flood plain (as defined by the Federal Emergency Management Agency (FEMA) may be advantageous to the agency.
 - f. Proposed facilities must be in areas with sufficient infrastructure in place to support the agency operational needs. See building characteristics below.

Building Characteristics:

- a. The minimum requirement for leased office space is a complete, code compliant, enclosed, conditioned space with plumbing, power, and lighting, able to be configured to suit the agency program.
- b. Please refer to:
 1. Appendix A, "Leased Space Requirements" for general performance requirements and specifications.
 2. Appendix B, "New Space Addendum" for specific site, building, and minimum tenant fit-up requirements.
 3. Appendix C, "Space Allocation" for space planning information. The program and layout will be adapted to the selected facility during the design process.
- c. A facility with a single floor plate and on the ground floor of a building may be advantageous to the Agency.
- d. A facility that can provide sufficient lab space may be advantageous to the agency.
- e. A facility that can provide space for agency's cold storage units may be advantageous to the agency.
- f. A facility that can provide parking for agency's boats may be advantageous to the agency. It may be preferential to the agency to have this parking be in an on-site, secure parking area.

Washington State
**DEPARTMENT OF
ENTERPRISE SERVICES**

- g. A facility that can provide an employee breakroom with a sink, fridge, and counter space is preferred.
- h. Please refer to Appendix C, "Space Allocation" for specific program requirements. The program and layout will be adapted to the selected facility during the design process.
