To: Capital Projects Advisory Review Board (CPARB)
From: Jeannie Natta, (She, Her) FDBIA, Director of Major Projects, Project Delivery Group, UW Facilities

RE: Letter of Interest – Project Review Committee representing Owners in Higher Education

I am interested in continuing to serve on the Project Review Committee by representing Owners in Higher Education. My tenor at the University of Washington began in August 2010. During this time, I managed the two largest design-build projects on campus and several midsize design-build and GCCM projects. My current role focuses on projects delivered through alternative public works project delivery methods. I supervise Project Managers and have Director oversight of major projects. I also play an active role in ensuring Project Delivery Group staff are trained in alternative delivery methods and understand the Washington State requirements to use these methods.

I completed my master's degree in construction management in 2013 and currently teach Design Build Project Management in the graduate program. I am also active in the Design Build Institute of America (DBIA). In 2025 I was inducted into the DBIA College of Fellows, recognizing my contributions and expertise in design-build project delivery. I served on the DBIA Core Curriculum committee to update the certification training materials. Currently I serve on the Progressive Design Build Best Practices committee. I also serve as the Vice Chair of the Western Washington DBIA Chapter.

My education, experience, and commitment to ensuring public works are compliant with the Revised Code of Washington and executed using best practices make me a strong candidate for this position. I appreciate CPARB considering me for this appointment.
