Re: CPARB Performance Measures Report 2025

Dear Joint Legislative Audit and Review Committee:

In 2020, JLARC's sunset review concluded that alternative delivery methods are widely used, CPARB has created a forum for stakeholders to continually improve project delivery, and the Legislature reauthorized RCW 39.10. CPARB appreciates the time and effort JLARC has contributed to guiding CPARB leadership and staff in the development of performance measures in preparation for JLARC's Sunset Review of RCW 39.10 in 2030.

CPARB worked with committee and stakeholder representatives to develop the Sunset Review Performance Summary Status Report which includes CPARB's performance measure data from 2021 through 2025. The report has also been added to the CPARB Homepage and Background and Reference webpage for easy access.

Thank you for the extended deadline which gave CPARB an opportunity to consult committee members and stakeholders to ensure the information provided is clear and a true reflection of CPARB activity since 2020. If you have any questions, please contact CPARB Staff, Talia Baker at CPARB@des.wa.gov or (360) 790-8322 or me at linneth.riley-hall@soundtransit.org or (206) 398-5072.

Sincerely,

Linneth Riley-Hall

Linneth Riley-Hall
Chair
