Re: CPARB – Project Review Committee (PRC)
Mike D. Shinn Re-Appointment to Specialty Contractor Position

Dear Ms. Baker:

The Mechanical Contractors Association of Western Washington (MCAWW) strongly endorses the re-appointment of Mike D. Shinn to the PRC as a Specialty Contractor Representative.

Mike Shinn is a Mechanical Contractor. He has broad knowledge of and experience with public works construction and legislation. He is a credible advocate for mechanical specialty construction statewide. And he has attended many PRC panels, meetings and training sessions.

While it is important to have new members of the committee, it is also important to keep experienced members who have knowledge of the extremely important PRC process. Mr. Shinn would ably fill that need.

MCAWW has been heavily involved with Alternative Public Works since its inception.

Sincerely,

**Mechanical Contractors Association
of Western Washington**
