

Garbage and Recycling Fees

Tenants of on-campus facilities, as well as public and historical facilities, receive refuse and recycle services as part of their monthly rent. For other facilities, these services are charged at the rates described below.

Service rates

The rate for the full suite of garbage and recycle services is \$35 per yard, per collection of a dumpster assigned to a facility. This rate applies to both garbage dumpsters and cardboard recycle dumpsters. Paper recycle and commingle recycle services are included with the purchase of garbage or cardboard dumpster service.

Rates for customers using individual garbage or recycle services are:

- \$7.62 per yard, per collection of garbage or cardboard dumpsters assigned to a facility.
- \$5.43 per barrel, per collection for paper and commingled recycle.

Included services

Confidential shred service is available at no extra charge to customers purchasing the full suite of garbage and recycling services. Pick up of organic waste that will be composted is provided at no additional cost to Capitol Campus customers only. Rates for composting services for off campus customers are negotiable.

Who can use these services?

Tenants of Capitol Campus buildings receive these services as part of the On-Campus Office Facilities Fee (monthly rent). These services are also available at the rates listed above to state agencies, boards and commissions in Olympia, Lacey and Tumwater.

Our service commitments

The program sets the frequency of each service to best match the needs of each facility. Paper and co-mingled recyclable material is collected weekly. If more frequent service is needed, the program will work with customers to determine the number of needed bins. The program responds to service calls within 24 hours.

How to access these services

For tenants on the Capitol Campus, work with your building or property manager if you have any questions about garbage and recycle services. Other state agencies, boards and commissions in Olympia, Lacey and Tumwater interested in this service should contact Enterprise Services at (360) 902-0961.

Contact and additional information

The principle point of contact for garbage and recycle services is:

Cory Noffsinger
210 11th Avenue SW
PO Box 41019
Olympia, WA 98504
