

Company Profile

NASPO Value Point: MNWNC-130

Founded in 1984, Transource Computers is a Woman-owned Small Business headquartered in Phoenix, AZ that has consistently grown year after year into a highly visible and competitive master system integrator supplying total solutions management and integration.

We specialize in providing our customers with cutting-edge, cost-effective solutions for a variety of computing needs. As a premier system-builder, we offer many advanced and competitive solutions including: high-performance servers, clusters, workstations, desktops and notebook computers.

As a reseller of computer-related equipment, Transource maintains an inventory of over 300,000 products nationwide and excels at supplying these to you quickly and efficiently. We carry only the highest quality components from industry-leading names including: Intel, Lexmark, Fortinet, and Zebra.
