

STATE OF WASHINGTON  
DEPARTMENT OF ENTERPRISE SERVICES

*1500 Jefferson Street SE, Olympia, WA 98501*

3/11/2020

Project 2020-148  
Addendum 1

The Department of Enterprise Services' current Design-Build policy states that in order for a consultant who was awarded a pre-design agreement to be eligible to participate in a Design-Build competition for the same project, the pre-design agreement must be closed 180 days prior to the advertisement of the Design-Build Request for Qualifications.

It is the intent of the Department of Enterprise Services to allow consultants participating in the pre-design for this project to participate in the competition for Design-Build services.

The procurement timeline for Design-Build services for this project is dependent on construction funding. This funding may be authorized during the 2021 Legislative session. Construction project funding requires approval by both the House of Representatives and the Senate and is not likely to occur until March of 2021.
