Any covid19 restrictions to be aware of during the Site walks?

Mike See answered verbally that college protocol allows outdoor gatherings with adequate physical distancing. If participants must gather closer to hear a speaker for example, each participant should don a mask.

10:40:36 From Brenda Munson (she/her) to Everyone:

Will teams have a limit of participants who can attend the site tour?

Jim Watkins answered verbally that the number of participants from each design build team should be reasonable to allow multiple teams to participate in the two sessions. Paul Fiedler added verbally that the site walk sessions are intended to convey the same information. If a question arises that should be widely shared, the answer will be published by addendum.
