

SUPPLEMENTAL CONDITIONS
FOR WASHINGTON STATE FACILITIES CONSTRUCTION
(Paragraphs keyed to the State's General Conditions)

5.07 Adds New Paragraphs a. through i. to Paragraph A. 1. - SAFETY PRECAUTIONS as follows:

- A. 1. a. Site-Specific COVID-19 Safety Plan Required. As part of the project's Site-Specific safety plan, the Contractor shall prepare and implement a Site-Specific COVID-19 safety plan, which complies with the applicable Construction COVID-19 Job Site Requirements, as established by the State of Washington's phased business activity guidelines (attached hereto and incorporated by reference).
- b. The Contractor shall modify the Site-Specific COVID-19 Site Safety Plan to meet the construction requirements, and as needed, update the safety plan to reflect planned work and site conditions during the project.
- c. The Site-Specific COVID 19 Safety Plan must be available at the job site during the prosecution of work associated with any construction activities and made readily available upon request for inspection by state and local authorities.
- d. The Contractor shall clearly designate a Site-Specific COVID-19 Supervisor in its Site-Specific COVID-19 Safety Plan. The COVID-19 Supervisor name and contact information shall be visibly posted on site at all times.
- e. The Contractor shall be responsible to fully implement the Site-Specific COVID-19 Safety Plan, and shall provide regular status updates relative to compliance of the safety plan at each progress meeting.
- f. If the Contractor or any of its subcontractors determines that a single task or sequence of steps of a planned construction activity may fail to comply with the Site-Specific COVID-19 Safety Plan or the applicable Construction COVID-19 Job Site Safety Requirements, the Contractor shall immediately notify the DES Project Manager and A/E. The Contractor together with its subcontractors shall perform a Job Safety Analysis and identify the specific tasks or sequence of steps associated with the planned construction activity, potential injuries or hazards, and recommended safe job procedures to comply with the most current COVID-19 health and safety requirements.
- g. The Contractor shall incorporate all safe job procedures into the Site Specific COVID-19 Safety Plan, and must identify appropriate personal protective equipment and other protective measures to be used to

meet or exceed the most current COVID-19 health and safety requirements and other applicable health or worker safety guidelines or recommendations.

- h. The Contractor shall provide a copy of the Job Site Assessment to DES and the A/E at least 24 hours prior to proceeding with any identified single task or sequence of steps of a planned construction activity.
- i. The Contractor together with its subcontractors at every tier shall review and comply with safe job procedures outlined in the Job Site Assessment when performing the identified task or sequence of steps, of a planned construction activity.
