December 1, 2015

Mr. Chris Liu
Director, Department of Enterprise Services
PO Box 41401
Olympia, WA 98504-1401

Subject: 2015 Agency Report
Executive Order 12-06: Achieving Energy Efficiency in State Buildings

The Washington State Department of Transportation (WSDOT) submits its 2015 Report and Agency Progress Checklist related to Executive Order 12-06. Our corporate efforts to manage energy efficiency across our building facilities directly tie to WSDOT's focus on sustainable practices that promote conserving resources for future generations.

Statewide, WSDOT manages nearly 3.7 million square feet of owned and leased buildings that support the department's diverse business operations. Since a majority of our owned buildings (3.2 million square feet) are 26 to 50 years old or older, it is difficult to meet current energy code requirements while maintaining safe and effective workspaces. To mitigate this challenge, WSDOT actively seeks to identify opportunities to achieve reduced energy consumption as part of other preservation efforts within limited funding constraints. During 2015, WSDOT completed several projects that will result in measurable energy savings. These specific emergent projects, which included lighting and HVAC system replacements, were driven by a need to ensure safe and functional work environments for department staff.

Since 2010, WSDOT has led state agency implementation of laws to improve the energy efficiency at state buildings (RCW Chapter 19.27A.190). Going forward, we will continue to focus on our building facilities with high energy usage with the intent to implement energy efficiencies where practicable. Please contact Jeff Cook, State Facilities Administrator, at 360-705-7890 if you have any questions regarding WSDOT's submitted documents.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Millar'.

Roger Millar
Deputy Secretary

Executive Order 12-06 Report

ACHIEVING ENERGY EFFICIENCY IN STATE BUILDINGS

December 2015

Agency Name:	Department of Transportation
Agency Point of Contact:	Jeff Cook
Point of Contact Title:	State Facilities Administrator
Telephone Number:	360-705-7890
E-mail Address:	cookj@wsdot.wa.gov

Describe benchmarking, metering, audits, and energy retrofits completed by the agency in 2015 to meet the requirements of EO 12-06:

Benchmarking: WSDOT has expanded benchmarking efforts to include all 54 Reporting Public Facilities (RPF) sites in addition to other sites where utility data is automatically uploaded into EPA's Energy Star Portfolio Manager. In 2015 all required buildings/sites were successfully benchmarked and shared with the Department of Enterprise Services.

Metering: WSDOT evaluates opportunities to improve energy metering during new construction and/or during significant renovations.

Auditing and Energy Retrofits: Previously, projects identified through audits were not initiated due to funding limitations and a lack of direct allocations for this effort. In 2015, WSDOT re-initiated energy audit efforts on a statewide level with the anticipation of utilizing the COP process to fund identified projects.

Separate but related to EO 12-06 efforts: During 2015, WSDOT completed multiple projects, including projects at RPF sites that will result in measurable energy savings. These specific emergent projects included lighting and HVAC system replacements to ensure safe and functional work environments for department staff.

Describe benchmarking, metering, audits, and energy retrofits that the agency plans to implement in 2016 to meet the requirements of EO 12-06:

In 2016, WSDOT will continue to benchmark all RPFs. As more utility companies provide automated data into Portfolio Manager, WSDOT will pursue future

Executive Order 12-06 Reporting Form

opportunities to increase these efforts across our owned and leased building portfolio.

Describe how the agency used Energy Star Portfolio Manager benchmarking in lease negotiations for new or renewed leases in 2015:

In 2015, WSDOT did not negotiate or renew leases that require benchmarking.

Describe actions that will be taken in 2016 to save energy through operational changes and continuous monitoring using Portfolio Manager:

WSDOT's operational tempo is affected by many factors which affect the use of energy at building sites. Regulatory and statutory mandates such as stormwater permit regulations can directly increase staffing and/or hours of operation. Construction of new buildings also has the potential to increase the agency's overall building energy usage. A current example is construction of the new Traffic and Emergency Management Center which began operation in 2015. Benchmarking of specific key facilities in WSDOT's portfolio will allow focused evaluation to monitor and evaluate energy use trends through regular reporting. Data will be evaluated in the context of business operations, occupant use, seasonal impacts and building age and/or conditions.

Sustainability efforts and operational efficiencies are an active focus of discussion across all department business units. WSDOT is an active member of the Washington State University's Energy Extension Program Plant Operations Support Consortium. We participate in the Consortium's annual Energy Conference and partner with them for technical expertise for energy data monitoring with the Portfolio Manager program.
