

Voyager Fuel Cards stop working at the end of Wednesday 6/30/2021

The state fuel contract for Voyager fuel cards has ended. The Voyager fuel cards will stop working **as of the end of today.** For all “M” plated DES Fleet Operations vehicles you should have a replacement WEX fuel and card sleeve. Fuel pin numbers remain the same, please start using the WEX card immediately!

If you are driving a DES Fleet Vehicle with an “M” plate, but do not have a WEX fuel card for the vehicle or the replacement green fuel card sleeve, contact your agency ATO or DES Fleet Operations ((360) 664-9215 or mpdispatch@des.wa.gov) as soon as possible.

If your agency is using agency owned vehicles with Voyager fuel cards from Washington State master contract – 00612, this contract has been replaced by [Fuel Card Services contract #00819](#) and your access to these services will be ending. For details on this change please see our website for more information at <https://des.wa.gov/services/contracting-purchasing/purchasing/fleet-card-services>
